PROFILE SUMMARY

Passionate web developer skilled in multiple frameworks. Quick learner and problem-solving enthusiast, driven by creativity and strategic thinking. Strong problem-solving abilities and a keen eye for new technological trends. Continuously learning and implementing best practices in frontend development.

WORK EXPERIENCE

TFC Call Center   MAR 2023 - FEB 2024
Chat Support Agent

- Customer Service & Chat Support: Managed customer inquiries and sales for duct cleaning services via Facebook Messenger, leveraging strong communication and telemarketing skills to provide effective solutions.

PROJECTS

Seizure Deck (Final Year Project) | Flutter, Python (ML), MySQL, PHP

Developed a seizure detection app that uses ML models to monitor abnormal movements using accelerometer & gyroscope sensors. Features include real-time alerts, GPS tracking, seizure diary, and medication reminders for patients.

Event Management App | React Native, Expo CLI, RESTful API (Mockapi.io)

Developed a university event planning app with event registeration, search by venue, event details, and feedback submission, featuring a modern UI with MockAPI.io for data management.

My Portfolio Website | Next.js, Tailwind CSS, Framer Motion

Designed and developed a personal portfolio website showcasing projects and skills with smooth animations, dark mode, and a responsive UI using Framer Motion.

Gemini AI Clone | React.js, Vite.js, Google Gemini API

Created a AI assistant using Google Gemini API with real-time conversational capabilities. Focused on user-friendly UI and fast response times.
